VIVERE Sea Island

Sotto tutti i punti di vista,
il Sea Island è la migliore qualità di cotone
mai coltivata - dovunque e in qualsiasi
tempo.

By all accounts, Sea Island
was the finest quality of cotton
ever grown – anywhere or at any time.

Richard Dwight Porcher,
Sea Island Cotton

Per individuarlo non basta dare una rapida occhiata all'atlante. Il cotone più pregiato al mondo si nasconde in una piccolissima porzione di terra tra le isole caraibiche di Barbados e Giamaica.

La sua preziosità è misurabile in una serie di caratteristiche naturali che non temono confronti. Le sue fibre sono le più lunghe tra tutte le varietà esistenti, estremamente fini, resistenti e lucenti.

Basterebbe questo a indicarlo come la fibra di cotone migliore al mondo, ma il Sea Island è molto di più. Alle sue spalle una storia plurisecolare che ne conferma l'unicità e accresce la magia.

Lucente come la seta, prezioso come il cashmere, 100% cotone Sea Island.

Giving just one quick look to the atlas is not enough to find it: the most precious cotton in the world hides itself in an incredibly small portion of land between the Caribbean islands of Barbados and Jamaica.

Its preciousness is measurable in a series of natural characteristics that are not second to none. Its fibres are the longest ones among all the varieties existing, extremely fine, resistant and brilliant.

These few pieces of information could be enough to indicate it as the best cotton fibre in the world, but Sea Island is much more than that. Behind its back there is a centuries-old history that confirms its uniqueness and empowers its magic.

Shiny like silk, precious like cashmere, 100% Sea Island Cotton.
